

Rail built Ohio and united our nation. Today it plays a growing role in passenger travel and freight at a fraction of the energy costs of cars and trucks. The Ohio Rail Tourism Association (ORTA) and its members help you experience and enjoy a time where travel was exciting, scenic, and relaxing. Each ORTA member provides a unique rail experience that is both fun and historical such as the coal mining history in Byesville, the Cabin Fever Express on the Cuyahoga, the world's largest model layout in Cincinnati and the Train Robberies on the Hocking Valley and ACJ.

In Ohio, more than 22 rail related public attractions are visited by an estimated 3,030,000 tourists a year with a growing interest in passenger rail. Many tour operators have already discovered the fun and profit in rail centered activities spread throughout Ohio. Package your tour with local attractions.

If rail related tours become a part of your offerings, we encourage you to become an ORTA member as well and benefit from the synergies of our shared efforts to promote rail tourism. Membership is open to tourist railroads, excursion operators, depots, railroad historical groups, rail museums, attractions that involve rail displays, rail festivals, any business involved in tourist rail activities (i.e., restaurants, suppliers), and individual supporters.

The world's most fascinating carvings at Warther's Museum in Dover

For more information contact Lynda Nelson, Executive Director, Ohio Rail Tourism Association. 614-891-1132, or Lynda@lyndanelsonco.com and visit our website at www.ohiorailtourism.org with links to our members.
